11. Nov. 2009

Based on spray trials carried out by:

WIWA Wilhelm Wagner GmbH & Co. KG,  
Gewerbestrasse 1 – 3  
35633 Lahnau Germany

in which the spray applied waterproofing membrane CONIPUR M 800 manufactured by:

BASF Construction Chemicals Europe AG  
Industriestrasse 26  
8207 Schaffhausen  
Switzerland

using a spray machine of the type Duomix 333 as manufactured by WIWA Wilhelm Wagner GmbH & Co. KG. The following properties of the sprayed material were tested by BASF Construction Chemicals Europe AG:

Shore Hardness  
Tensile strength  
Elongation at break  
Tear strength  
Void volume

All the properties tested were found to be satisfactory.

Details of the machine settings can be obtained from WIWA or from their distributor.
